

Leslie Becker is an exceptional person who is dedicated and passionate about her career, community, and the future of our State of Alaska. Her experiences range from a top level executive with various health care organizations, Executive Director of the Chamber of Commerce, Elected member of our School Board, to seeking Representation for Reform for SE Alaska.

Leslie has demonstrated her abilities as a very good listener. After hearing all of the input from everyone, she will clearly and decisively make a decision in the interest of all parties. She is also dynamic, transparent, and most importantly, can support all of her decisions with sound and logic reasoning.

Leslie weighs all input introspectively prior to drawing any conclusions. Leslie will represent our community with a total commitment towards improving the many areas where we excel. She will passionately work to change the course of areas of concern that significantly impact the citizens financial welfare and long term success of the community. She truly possesses the courage of her convictions in the best interest of the citizens of our region. It is my personal conclusion that Leslie can both lead and effectively represent us in our desires to have many the issues resolved favorably that benefit SE Alaska.
